|              | 124 Conquering Workplace Negativity  
(Fred Pryor Seminar)  
Robin White                                                                 |                                                                                     |
|              | JCAHPO credits are noted under course descriptions                                                                                                                               |

Cancellations received by February 27 will be refunded, minus a 20% administrative fee. No refunds after that date.

Sponsors of programs intended to prepare attendees for JCAHPO’s certifying examinations are required to publish the following disclaimer on all program advertisements, brochures, or notices, and on the Credit Reporting Forms distributed to attendees:

“Although JCAHPO has awarded continuing education credit for this course, JCAHPO does not sponsor this or any other review course. Course material is based on the instructors’ interpretation of the content areas outlined in the JCAHPO Criteria for Certification, and the instructors of this review course have no direct knowledge of the specific certification examination questions.”

JCAHPO credit hours are awarded on a 1-for-1 basis, i.e., 1 course hour (60 minutes) equals 1 credit hour. Credit is awarded in whole hour (60 minute) increments and quarter hour (15-minute) increments. Credit hours will be awarded for actual instruction time, including question-and-answer periods, but excluding time spent on pre- and post-tests, registration, breaks and completion of course evaluations. Credits are awarded based on course descriptions, learning objectives and faculty qualifications.

</tr>
</thead>
<tbody>
<tr>
<td>7:30 a.m.</td>
<td><strong>Course 101 Grand Rounds (Credit Group A)</strong>&lt;br&gt;Putting Humpty together again – methods of eyelid reconstruction – Upon completion of this program attendees should have learned the various methods of eyelid reconstruction following trauma or tumor removal. Daniel Buerger, M.D., David Buerger, M.D., Phillip Choo, M.D. &amp; Cari Lyle, M.D.</td>
<td>Cari Lyle, M.D.</td>
</tr>
<tr>
<td>10:00 a.m.</td>
<td><strong>Course 108 (Credit Group A)</strong>&lt;br&gt;Keratometry – Upon completion of this course attendees should have learned three uses of the keratometer. Be able to explain the relationship of numerical values to corneal steepness and how to describe the final appearance of the mires at the completion of the measurement, on a Bausch &amp; Lomb keratometer. Jane T. Schuman, COT, COE</td>
<td>Jane T. Schuman, COT, COE</td>
</tr>
<tr>
<td>8:35 a.m.</td>
<td><strong>Course 102 (Credit Group A)</strong>&lt;br&gt;DSEK - Upon completion of this course the attendee should have learned the indications for DSEK, details of the DSEK procedure and pre and post-operative management. Deval M. Paranjpe, M.D., FACS</td>
<td>Deval M. Paranjpe, M.D., FACS</td>
</tr>
<tr>
<td>11:05 a.m.</td>
<td><strong>Course 109 (Credit Group A)</strong>&lt;br&gt;Retinal Surgery - Upon completion of this course attendees should have learned the most common retinal diseases that require surgery, indications for surgery, retinal surgery techniques and the post operative care required by retinal patients. Andrew W. Eller, M.D.</td>
<td>Andrew W. Eller, M.D.</td>
</tr>
<tr>
<td>8:35 a.m.</td>
<td><strong>Course 103 (Credit Group A)</strong>&lt;br&gt;Telephone triage &amp; eye terminology - Upon completion of this course the attendees should have learned to correctly triage incoming phone calls for routine, urgent &amp; emergency visits; understand common ophthalmic words and to comprehend the foreign language of ophthalmology. Chris Balouris, M.D.</td>
<td>Chris Balouris, M.D.</td>
</tr>
<tr>
<td>11:05 a.m.</td>
<td><strong>Course 110 (Credit Group A)</strong>&lt;br&gt;Glaucoma surgeries – Upon completion of this course, attendees should have learned about express tube shunt insertions, trabeculectomy surgery plus combined cataract/trabeculectomy surgery and indications for each of these procedures. Donald Morris, D.O.</td>
<td>Donald Morris, D.O.</td>
</tr>
<tr>
<td>8:35 a.m.</td>
<td><strong>Course 104 (Credit Group A)</strong>&lt;br&gt;Assessing HIPAA compliance in the physician practice – Upon completion of this course, the attendee should have learned the basis of the currently implemented six rules of HIPAA, understand the advanced compliance issues and how to ensure the office is HIPAA compliant on regulations and patient rights through ongoing staff training. Joan M. Kiel, PhD, CHPS</td>
<td>Joan M. Kiel, PhD, CHPS</td>
</tr>
<tr>
<td>11:05 p.m.</td>
<td><strong>Course 111 (Credit Group B)</strong>&lt;br&gt;Techs and Management – Upon completion of this course attendees should have learned to identify opportunities to improve efficiency in a clinical practice, methods to maintain patient confidentiality, and good communication skills for use with supervisors, employees and patients. Anna M. May, COT, OCS</td>
<td>Anna M. May, COT, OCS</td>
</tr>
<tr>
<td>10:00 a.m.</td>
<td><strong>Course 105 (Credit Group A)</strong>&lt;br&gt;Refractive surgery - Upon completion of this course, the attendee should have learned an overview of refractive surgery with specific relevance to selecting the correct candidate. Vasiliki Christopoulos, M.D.</td>
<td>Vasiliki Christopoulos, M.D.</td>
</tr>
<tr>
<td>11:05 a.m.</td>
<td><strong>Course 112 (Credit Group A)</strong>&lt;br&gt;Release of patient information (protected health information) – Upon completion of this course attendees should have learned the purpose of rules and regulations regarding privacy and confidentiality; who owns and who controls health care information; what is minimal necessity, when you may release information without patient authorization and what could happen when there is failure to follow rules and regulations. Fran Ciamacco, MS, RHIA</td>
<td>Fran Ciamacco, MS, RHIA</td>
</tr>
<tr>
<td>10:00 a.m.</td>
<td><strong>Course 106 (Credit Group A)</strong>&lt;br&gt;OPHTHALMIC manifeststions of systemic diseases– Upon completion of this course attendees should become familiar with conditions, rare or common and have learned the ocular manifestations of systemic diseases which, through the ophthalmic examination, often leads to the proper diagnosis of multiple vascular, infectious and auto-immune diseases. Thierry Verstraeten, M.D.</td>
<td>Thierry Verstraeten, M.D.</td>
</tr>
<tr>
<td>1:20 p.m.</td>
<td><strong>Course 113 (Credit Group A)</strong>&lt;br&gt;Red eye – Upon completion of this course attendees should have learned to describe red eye secondary to the following: viral, allergic, or bacterial conjunctivitis; herpes simplex, HZV keratitis, episcleritis, scleritis and subconjunctival hemorrhage. Anna B. Miller, M.D.</td>
<td>Anna B. Miller, M.D.</td>
</tr>
<tr>
<td>10:00 a.m.</td>
<td><strong>Course 107 (Credit Group B)</strong>&lt;br&gt;Technically speaking – Upon completion of this program attendees should have learned to identify options for determining patient flow, methods to increase patient compliance with physician orders and describe strategies to aid in effective communication with patients.
